

# KICKR BIKE

smart bike

## RIDE REAL

### NEW FEATURES!

- WiFi connectivity
- KICKR Direct Connect
- Max Power now 2500 Watts
- ERG Easy Ramp

- 1 Easy, adjustable fit and component customization, with adjustable crank arm length
- 2 Programmable virtual shifting and custom gear configuration
- 3 Simulated grade of +20% to -15% for realistic climbing and descending

#### 4 KICKR DESK

Adjustable height desk, with built-in tablet and smartphone stands, the KICKR DESK make it easy to connect to all of your devices.

#### 5 KICKR HEADWIND

Smart fan can be manually controlled, paired to your phone via bluetooth, or connect to ANT+ speed sensors, heart rate monitors and smart trainers to blast riders with up to 30 mph of targeted, cooling airflow.

### CONNECTIVITY

Connect your KICKR BIKE to all of your devices, now with KICKR DIRECT CONNECT and connectivity over your WiFi network. KICKR Direct Connect attaches your KICKR to your router for a constant streaming virtual ride or race. Connecting on your WiFi network for a faster and more stable connection to your devices, and get Automatic Firmware Updates.

### KICKR RIDE FEEL

KICKR BIKE combines KICKR's legendary resistance and grade simulation technologies to replicate the sensation of riding outdoors. Interval interrupted? ERG Easy Ramp returns you to your power target over 10 seconds, easing you back into your workout so you can hit your targets.

### TRUE FIT

Guided by an intuitive setup app, Wahoo has made it simple to match KICKR BIKE's fit to your outdoor bike's exact geometry. Dial in your fit with easy access quick release levers – even customize with your own components for optimal comfort and performance.

### REALITY SHIFT

Virtual shifting and custom gears allow you to match the gear ratios of your outdoor bike, including number of speeds and even cassette tooth count, and replicates most major manufacturer group sets to create the most personalized ride experience.
